

Experiences consumers love. The data you need.

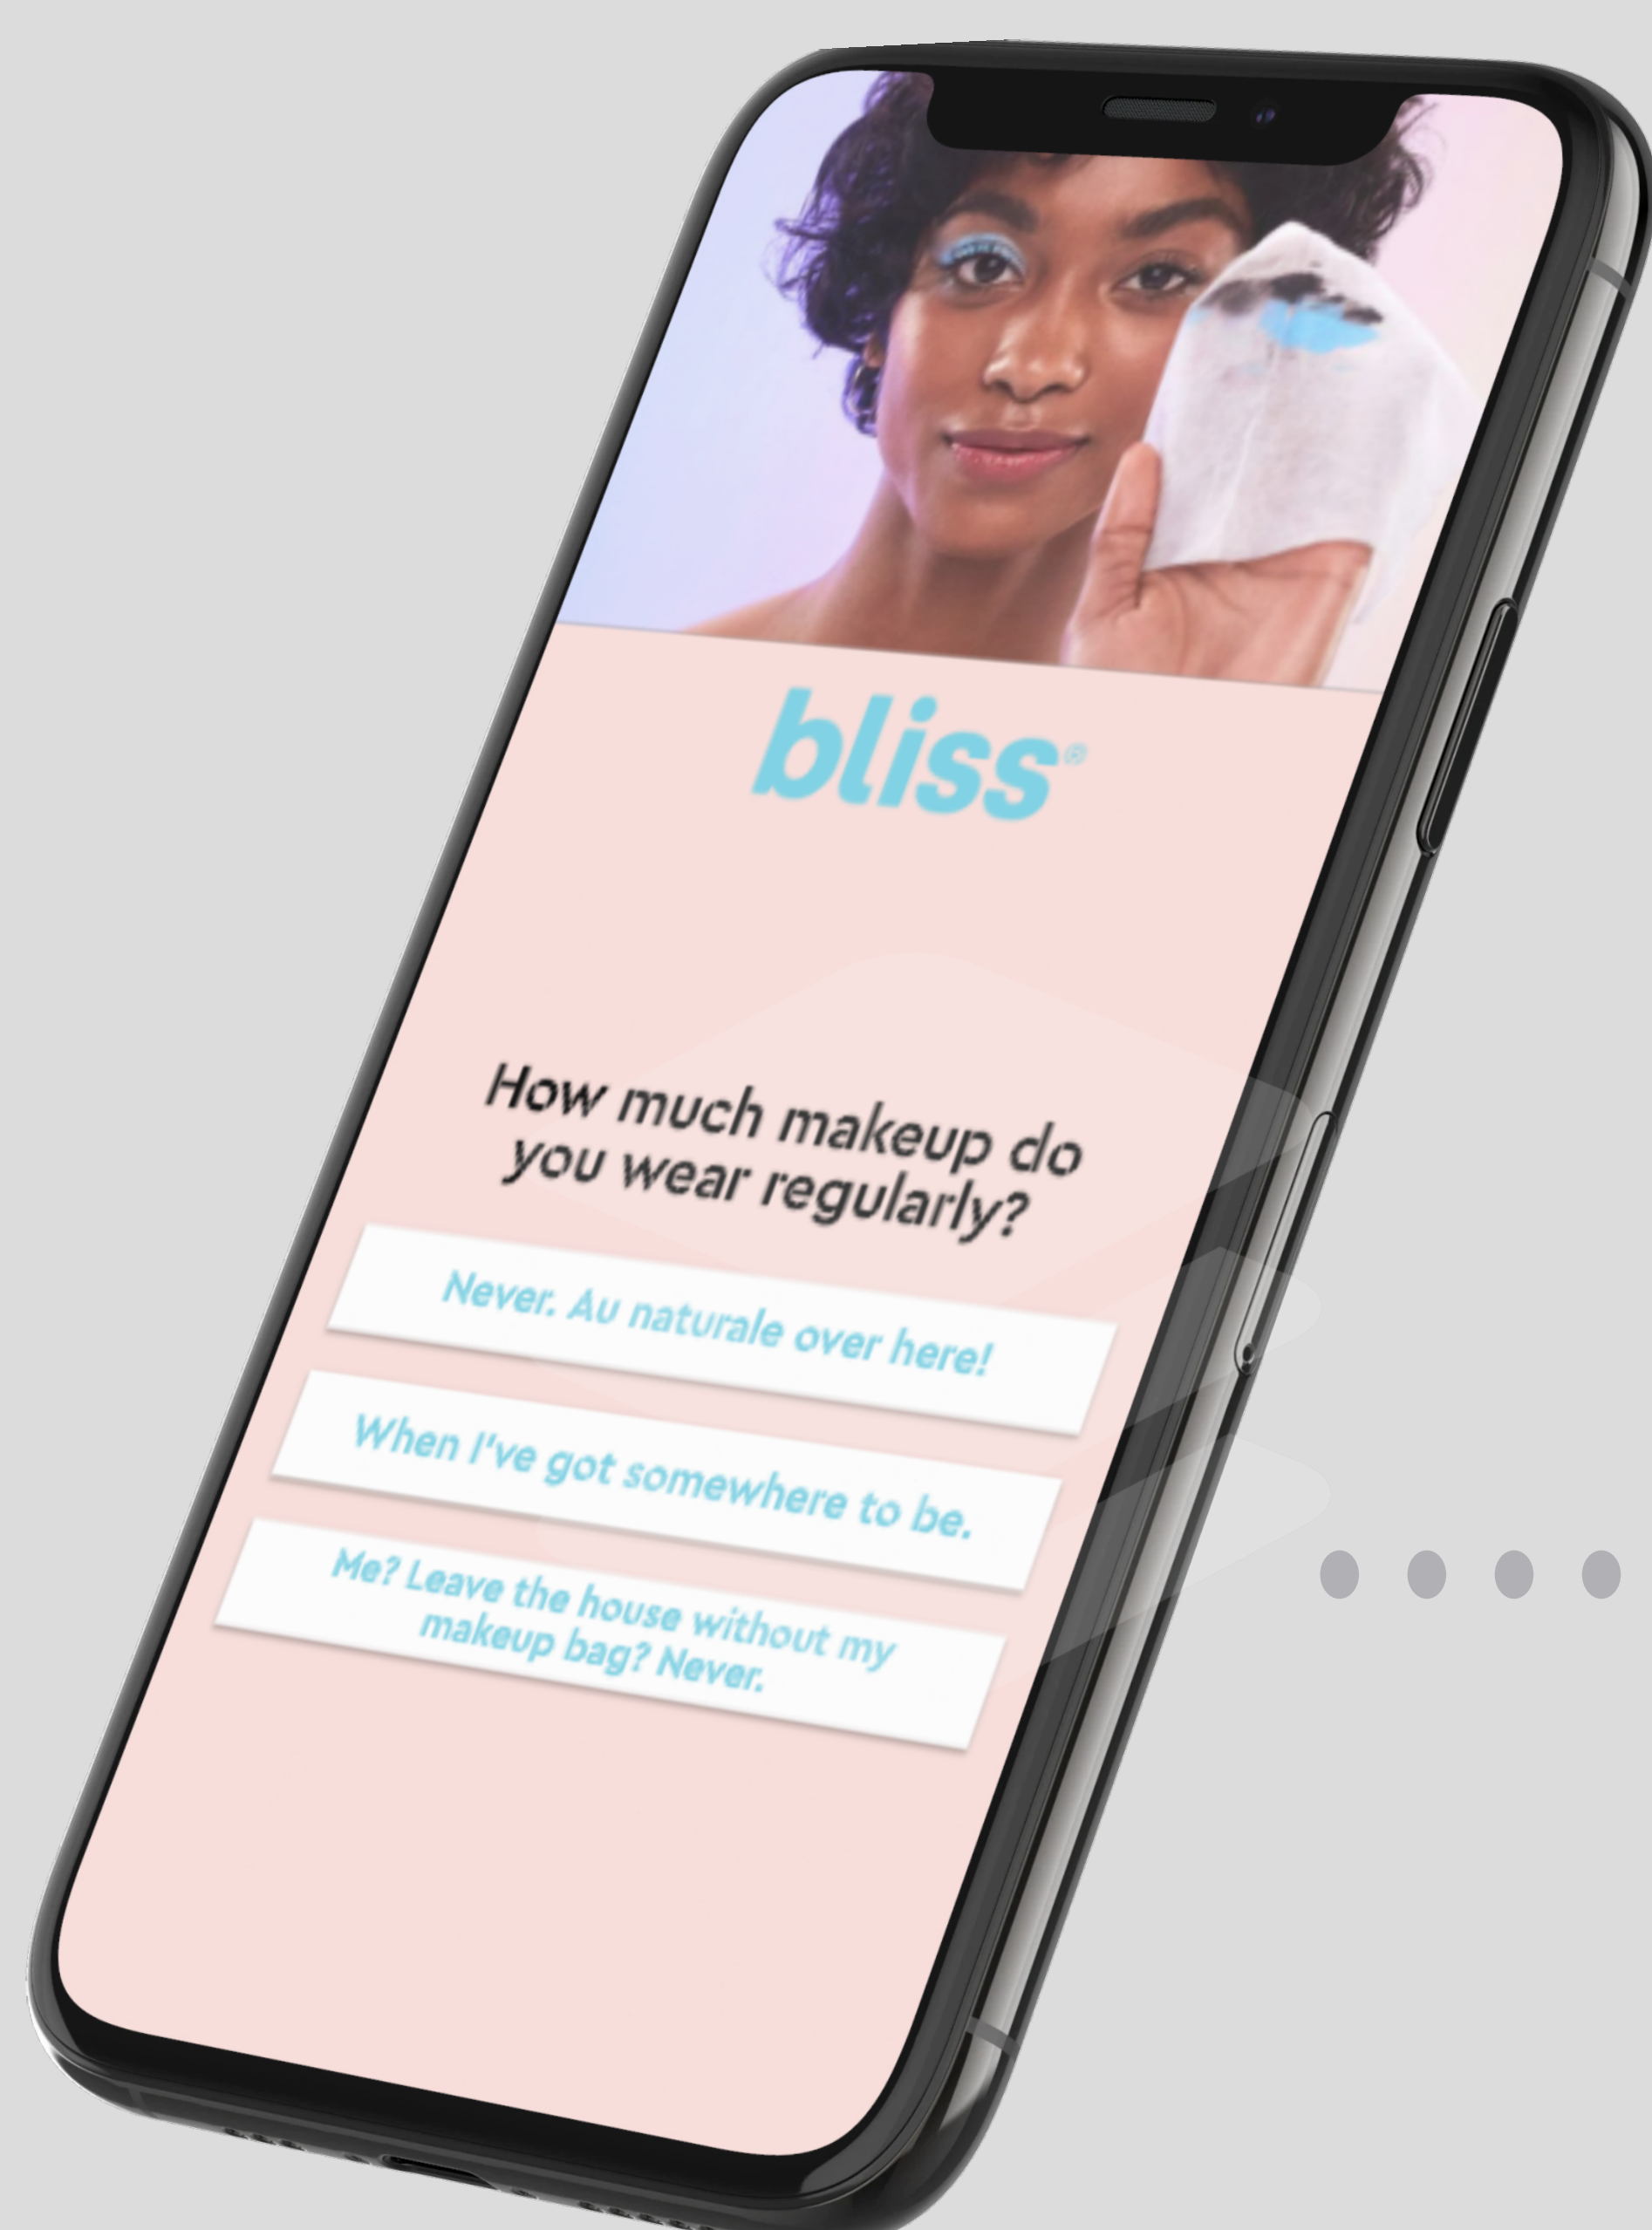

Create beautiful engagements that launch anywhere.
No code required.

BETTER AUDIENCE ENGAGEMENT

Jebbit is *the* software platform for capturing consumer attention. Build personalized interactive experiences, branded surveys, and lead forms with average completion rates of over 85% — all while capturing declared data directly from consumers.

WHY JEBBIT?

- **All-In-One Platform:** Everything you need to capture attention — from simple surveys & lead forms to fun, interactive experiences such as a shoppable product match quiz.
- **Speed & Control:** No outsourcing, design experience, or coding required. Start with a template and fully brand your experience with fonts, colors, logos, and imagery.
- **Analytics & Insights:** Real-time performance analytics help optimize experiences to hit your goals. Audience insights enhance your segmentation strategy with an understanding of customers' motivations, intents, and desires.

WHERE TO USE JEBBIT:

Jebbit is URL based. Launch anywhere you can put a URL or QR code.

“Jebbit allows us to quickly create great consumer experiences, and add value into people’s lives through personalization. It’s allowed us to take our timelines down from weeks to days, with better results!”

WHAT IS
DECLARED DATA?

First-party data that has been *willingly* shared by an individual consumer, often about their interests, motivations, intents, or preferences.

CREATE
engaging experiences

- Templates make interactive content like live polls, product finders, and articles a snap.
- Branching gives users unique experiences.

LEARN
consumer preferences

- Capture declared data that reveals what drives customer behavior.
- Segment audiences for more accurate remarketing.

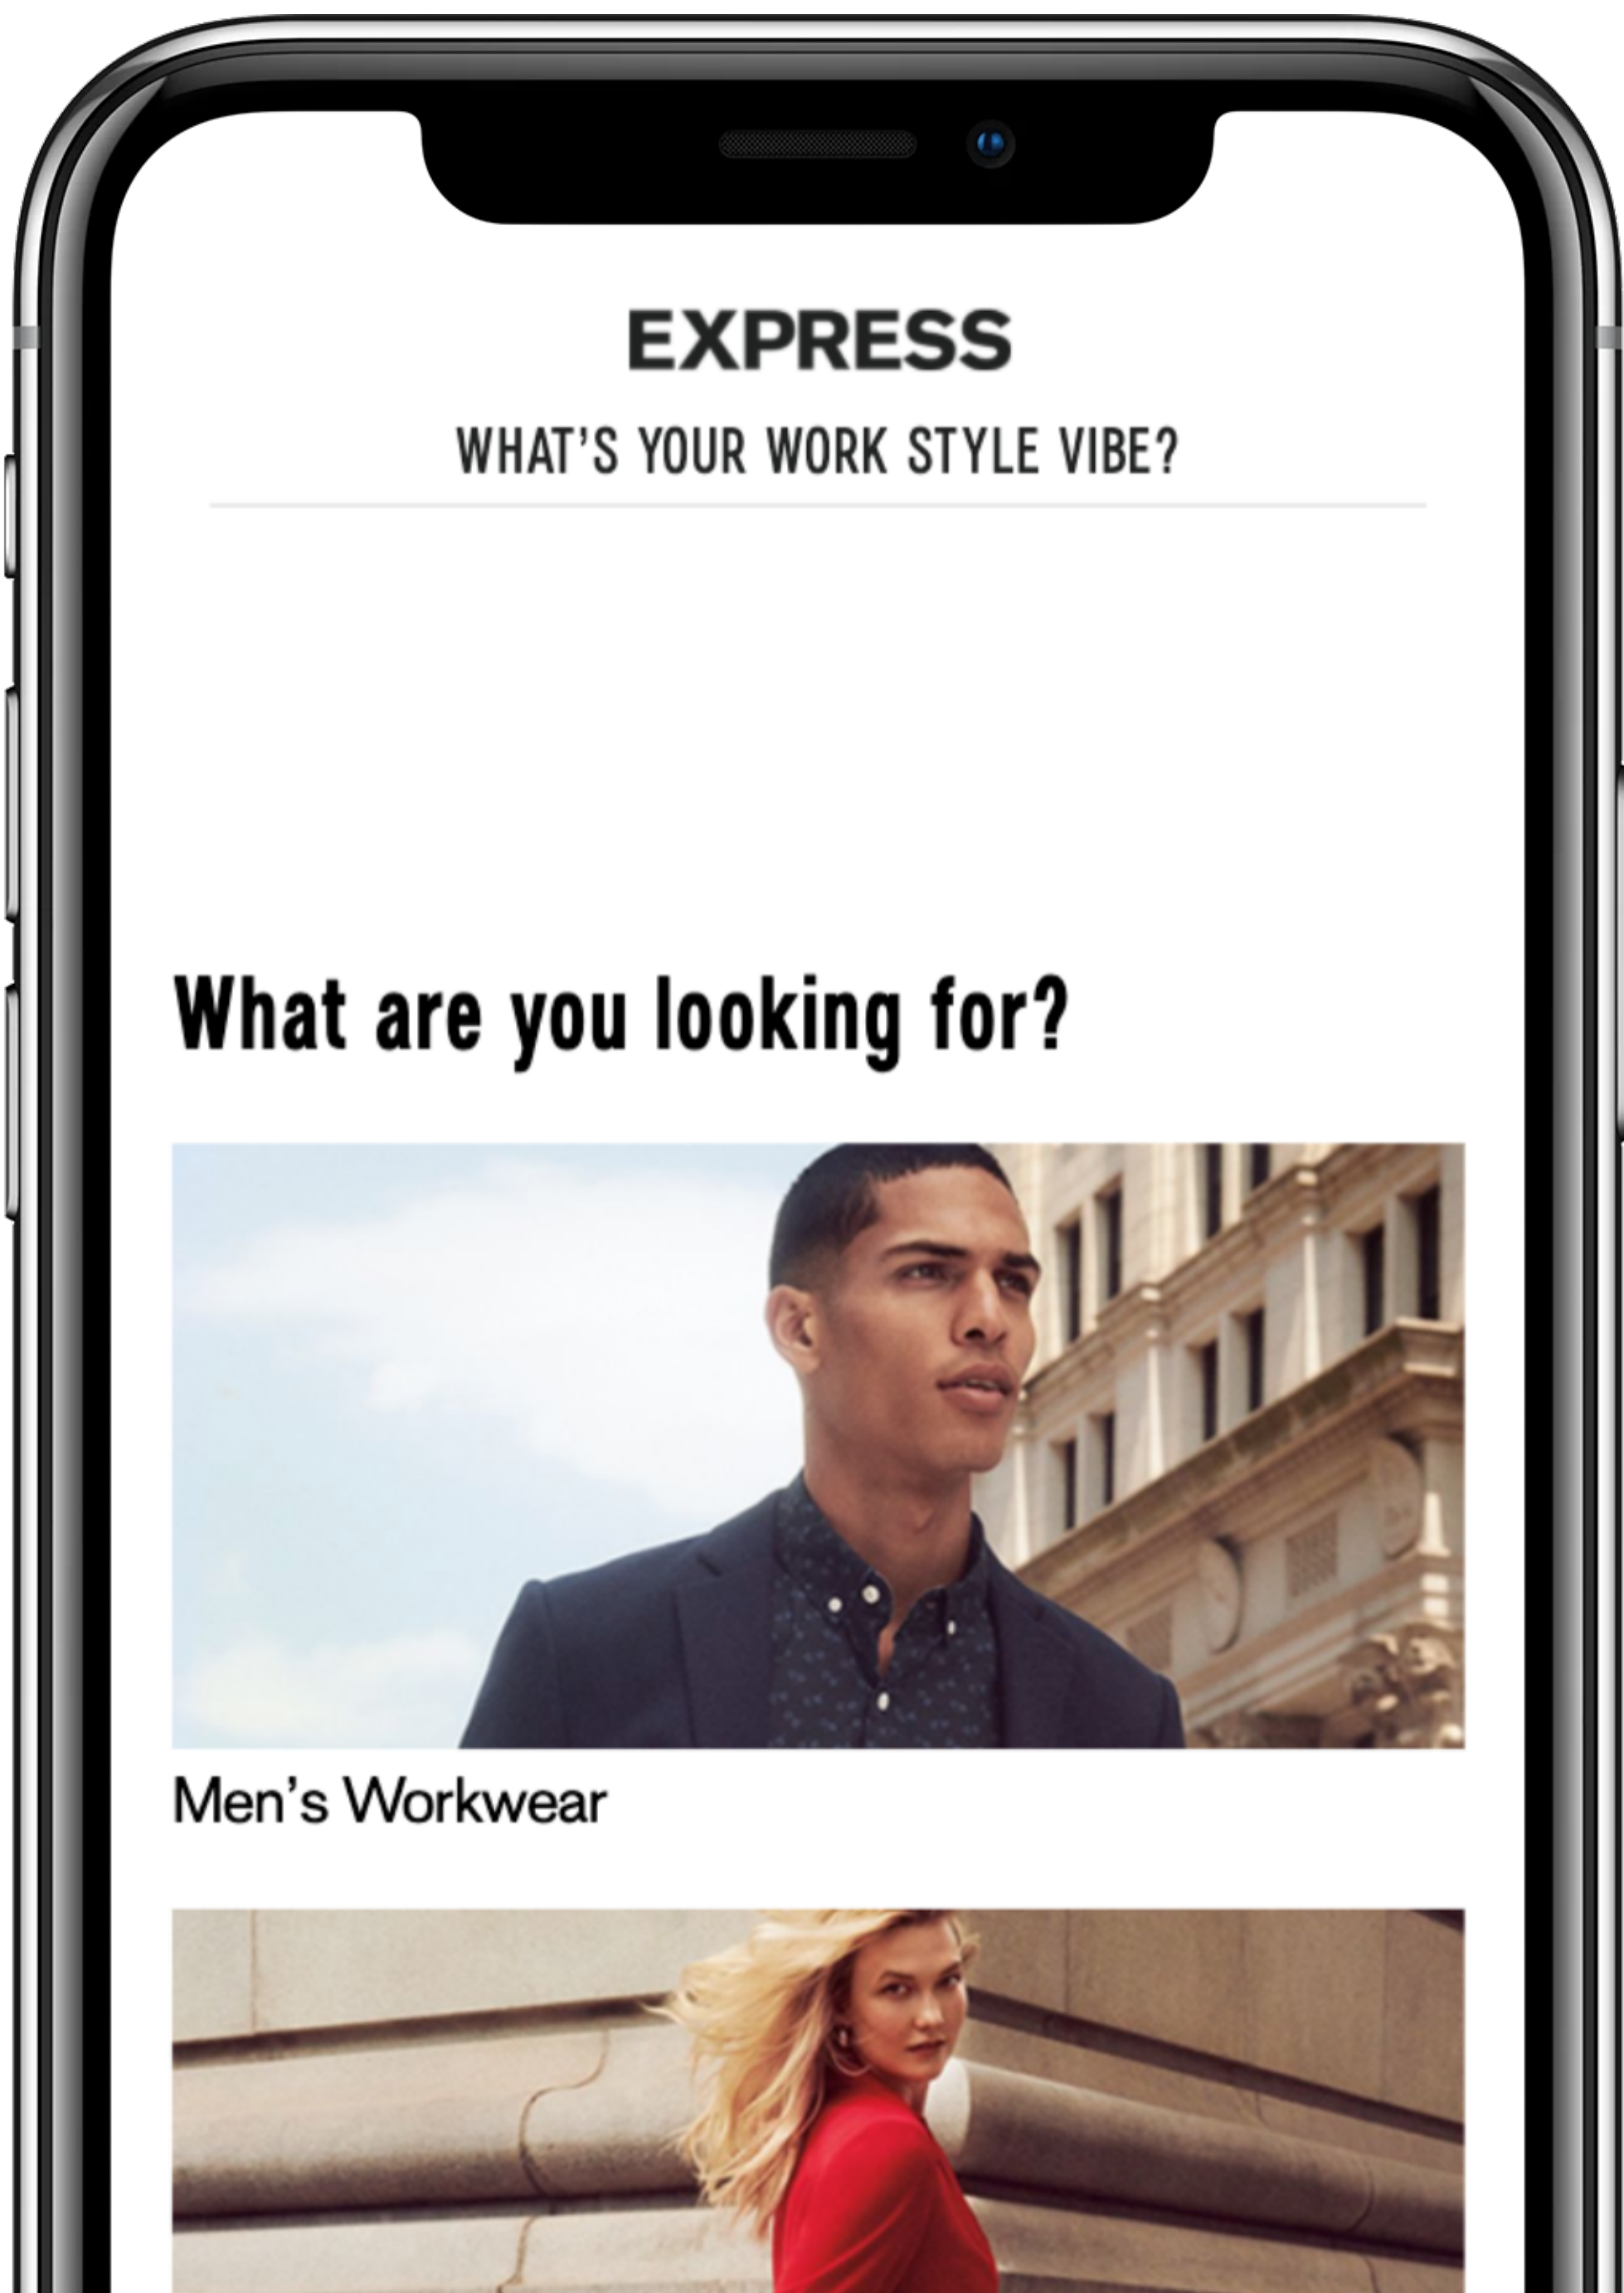

ACTIVATE
data to drive lifetime value

- Integrate declared data into your CRM or ESP platform.
- Use trigger emails & texts to power in-the-moment personalization.

Jebbit has helped us turn the moments in between purchases into points of engagement that drive incremental trips and revenue.
